## TV user guide

### Watching broadcast TV channels

To watch broadcast TV, select the Antenna TV tile on the Home screen. Your TV remembers the last channel you watched and starts with that channel playing.

#### Changing Channels:

- Press to select the next higher channel
- Press to select the next lower channel
- Press to display the channel list, use UP and DOWN to navigate, press OK to select the channel
- Press to jump to the previous channel

#### Program Information:

View program information by clicking OK

#### Adjusting Settings:

Press to display the Options menu. Press UP and DOWN to highlight an option, and then press LEFT and RIGHT to change the setting.

### Streaming

To use streaming services like Netflix, navigate to the Home Page by pressing the button. Use the navigational buttons (UP, DOWN etc) to find the streaming app you'd like to launch and select using OK. You will likely have to sign in to your own account to use the streaming app, so remember to log out of it before you check out.

### Need more assistance?

If you require further assistance or are experiencing issues with your TV please contact our friendly team at the front desk (dial 9).
